

RELY ON OUR EXPERTS REGARDING YOUR REFRIGERATION SERVICES!

Fri-Service Czech is a specialized company providing services to retail stores and chains in the field of refrigeration.

We provide professional 24-7 service for the refrigeration and freezing equipment of stores throughout the Czech Republic. We arrive at locations all over the Czech Republic within 4 hours after a fault is reported. We perform preventative inspections and all reviews related to refrigeration equipment and technologies. Our advantage is our dedicated IT system, electronic service sheets, and online overviews of the work of technicians. You know exactly what you are paying for. We charge by the minute. No „extra hours“.
Radim Baxa, Managing Director of Fri-Service Czech

Our services at a glance:

- Projects design and advisory
- Conceptual & Technology Planning
- Engineering, Equipment Installation & Projects Execution
- Service and maintenance of store equipment
- Distribution of store equipment
- Logistics services (related to equipment installations and servicing)
- Assistance & Advisory regarding local legal requirements

The company is one of the largest providers of these services in the Czech Republic, services 700+ stores (supermarkets and hypermarkets), and since the beginning of its operation in the Czech Republic, it has carried out more than 390 successful installations of refrigeration technologies in these stores.

We know Retail. We take care of your stores. Responsibly.
